---------------------------------------	----

CONTACT US	16
-------------------	----

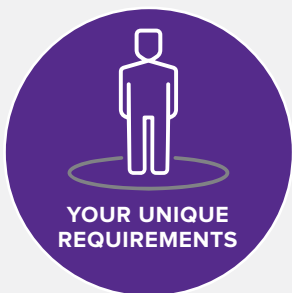

1300TempFence is Australia's preferred specialist in temporary fence hire. With 23 years experience in the industry, we offer complete site solutions alongside competitive prices, fast reliable service and industry leading products.

We ensure that our customers can get their job done in a safe and secure environment.

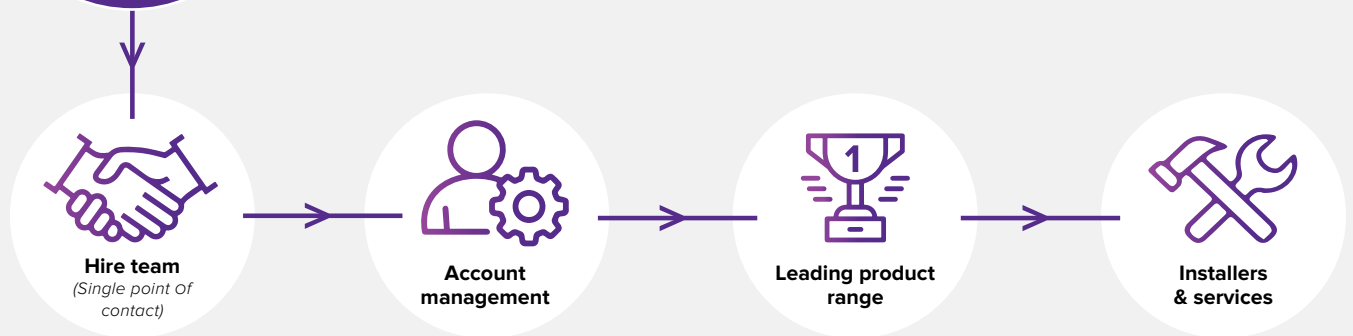

Whether you work in; **infrastructure, civil, industrial, commercial, residential** or **events** our goal is to provide a service that makes your job or event run that little bit smoother. With our vast experience, we know exactly what works on site.

All our products are fully compliant to Australian Standards. With seven branches across the nation, we have Australia covered.

DEDICATED ACCOUNT SUPPORT

We provide dedicated account support. This combined with our proven, robust management structure enables effective communication and the continual ability to meet our customers' needs.

ENGINEERED TEMPORARY FENCING

At 1300TempFence, we take pride in supplying industry leading, fully engineered systems, so you don't need to worry about issues with compliance or safety. All systems are certified by third party engineering consultants and all relevant engineering

documents will be provided to you throughout the quoting and installation stages of your project. All testing documents have been prepared in accordance with the following Australian Standards: AS 4687 – 2022 Temporary Fencing and Hoardings.

TEMPORARY FENCE

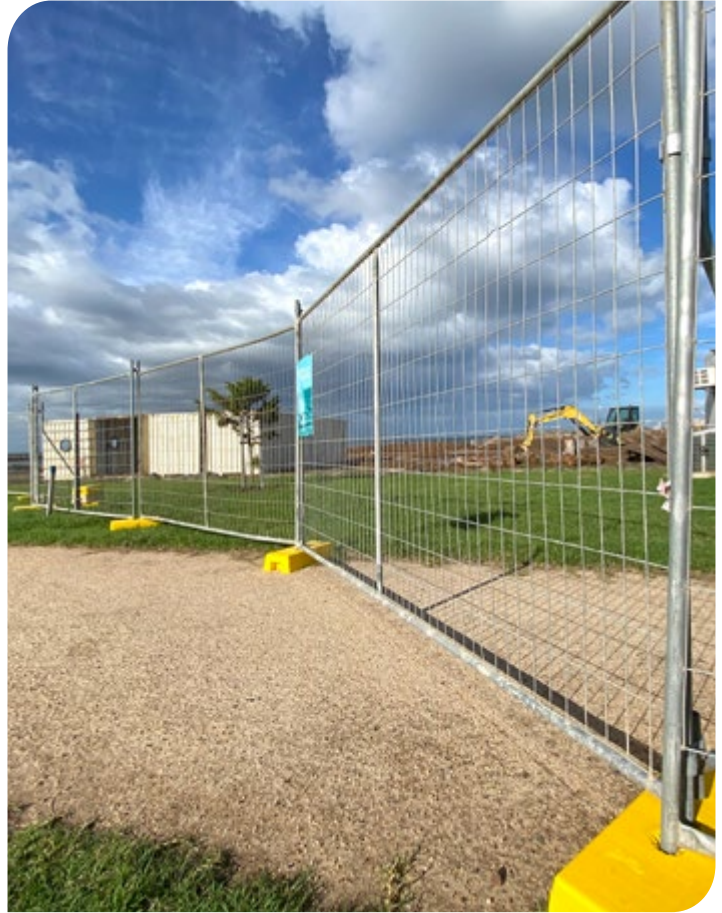

Temporary fence is vital when it comes to managing and protecting your work site or event. Whether the need is to prevent the public from entering a hazardous site, limiting access, providing security, or ensuring health and safety requirements are met, we have a temporary fencing solution to help you. Our infrastructure systems have been specially designed and engineered to perform on any major project or large scale event to ensure safety and compliance. With our unwavering commitment to OH&S and use of quality products we can provide unrivalled site security and safety solutions.

Capabilities include:

- Any size site, any hire period
- Fully engineered systems
- Night & weekend works

Projects include:

- Events
- Road & rail
- Bridges
- Tunnels
- Airports
- Telecommunications
- Water
- Ports
- Energy
- Sewers

PORTABLE TOILETS

Portable toilets can be an essential requirement when you are running a construction site or event.

We provide safe, comfortable and hygienic portable toilets that are modern in design, yet ergonomically friendly. All our toilets come with a fresh water flush for increased sanitation and cleanliness. Reducing the spread of waste and germs.

We offer weekly, fortnightly, monthly & on demand service & pump outs.

SOLAR / WIRELESS SITE CAMERAS

Monitor and protect your site and assets with our solar/wireless security camera systems. Available as either single or double camera units with the option of either above ground or in ground installation. Reduce the risk of theft and gain peace of mind that your site or venue has complete 24/7 visibility.

Benefits:

- Solar & battery powered
- Uses Telstra 4G wireless internet
- High quality 2K camera
- Advanced motion detection up to 20m range
- Email and push notifications to your mobile or tablet when motion is detected
- Flood light & strobe light can activate when motion is detected
- We can also provide Site Monitoring, if this is of interest, please let us know

WATER FILLED BARRIERS (SHIELD 1 / KI 1000 / X-SITE)

Water filled barriers are a great safety barrier solution. Suitable for traffic management, work sites and for crash protection. Our water filled barriers will help stop, contain and re-direct an impacting vehicle. Easy to install and manoeuvre, our barriers are highly visible, sturdy and durable. All our water filled barriers can be easily fitted with anti-gawk screens and fence tops for added privacy.

Our **Shield 1** barrier is made from a patented composite design, utilising a high strength modified UV stabilised polyethylene. Easy to install with steel connecting pins, this Australian made, re-directive barrier is approved by road authorities Australia wide.

The **KI 1000** Barrier has been designed specifically as a pedestrian and medium speed zone barrier. This barrier is easy to install with a simple interlocking system that allows the barriers to remain connected while moving through angles up to 120° each way. Fitted with reflective tape, these highly visible barriers have two apertures topside for the fitment of hazard lights, pole signage or extended mesh fencing. Complies with Australian Standard AS1742-3-2019 Traffic Control Devices for works on roads.

Our **X-Site** is a heavy-duty pedestrian zone barrier is perfect for delineating crowd flow. Making it the ideal choice for road closures for events or construction sites where traffic management is in place. Easy to install, with a simple interlocking system.

KI 1000

X-SITE

CROWD CONTROL BARRIERS

Managing a construction site, event or large scale gathering? Crowd control barriers are a must for creating a safe and secure environment.

Crowd control barriers are vital for maintaining safe crowd flow. Whether it's for employees, guests, or the general public; it's important to have the appropriate temporary fencing solution to suit your situation. Over the years we have supplied crowd control barriers to festivals, concerts, exhibitions, sporting events and work sites. We have the expertise to ensure your work site or event is both safe and secure, keeping people away from potential hazards while ensuring the safe movement of people.

Our strong, sturdy and durable crowd control barriers are lightweight, with stable flat feet. To reduce the risk of tripping further, the feet have holes for pegging or dyna-bolting.

Also available in the range are our crowd control pedestrian gates.

WHITE PICKET FENCING

Our high-quality temporary event fencing is lightweight yet sturdy. It's ideal for when you need to control crowds, yet still make a stylish impression.

1300TempFence have years of experience supplying a number of Australia's largest events, and we understand the need for fast, simple, and reliable temporary event fencing that also looks good.

Large low profile feet reduce tripping hazards making our White Picket fencing suitable for all occasions from sporting events, expos, weddings and more.

NOISE REDUCTION BARRIERS (Acoustic Curtains)

Our noise reduction barriers are a must to help protect local communities and employees from the harmful effects of excessive noise. Designed using world-leading acoustic technology they are made from high quality, lightweight, water resistant PVC to provide the most effective temporary sound solution. Our premium barriers are low centred to ensure noise can't penetrate beneath and with a strong insulated core they provide up to 28 decibels of sound absorption performance.

Benefits:

- Easy to install
- Work in public spaces
- Use bigger machinery
- Conduct night works
- Reduce event generator noise
- Indoors & outdoor

Scan this QR code to watch the noise reduction test on YouTube

SEMI-PERMANENT FENCING

When you require something stronger and sturdier than normal temporary fence. Then you need our semi-permanent fencing. Suitable for most civil, commercial, residential, major road and infrastructure works and large scale events and gatherings. We have two options available; **Rammed Post** and **Spike Post**.

Our **Rammed Post** system has thick walled posts which are driven into the ground, and clamped to the panels.

Our **Spike Post** system features a spike which is driven into the ground first, with the pipe inserted into the spike's receiving slot.

Both systems are specially engineered and designed to withstand very harsh conditions and high wind forces. We can advise, which is suitable for your site.

The advantages of semi-permanent fencing are:

- No need to use temporary fence feet and bracing
- No tripping hazards

RAMMED POST

SPIKE POST

PLASTIC SHEET TEMPORARY FENCING

Made from High Density Polyethylene (HDPE) sheets and attached to our sturdy MAXI 2.4m panels, our plastic sheet fencing system provides a great alternative to traditional plywood hoarding, while being extremely quick and easy to install.

Benefits:

- Full block-out and maximum privacy for your site
- No need for shade cloth attachment
- Faster install option than plywood hoarding

Perfect for small or large construction sites, these panels comply with the Australian Standard AS4687-2022 for temporary fencing and hoarding.

TEMPORARY POOL FENCING

Building or renovating a pool or spa?

Ensure your site is safe with our high-quality temporary pool fencing. Designed to restrict and limit access to your pool area. Our fencing is reliable, sturdy and secure. Combine it with our self-closing pool gates for added security and to ensure all visitors, family or construction workers are safe on your property.

Our temporary pool fence solutions are compliant with Australian Standard AS4687:2022 Part 1 and Part 4.

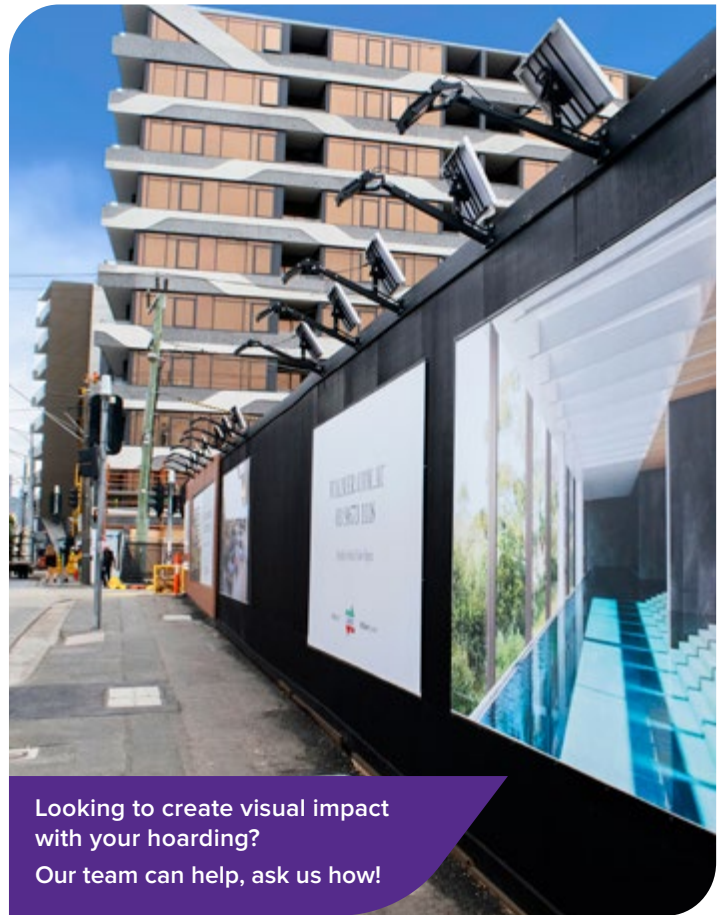

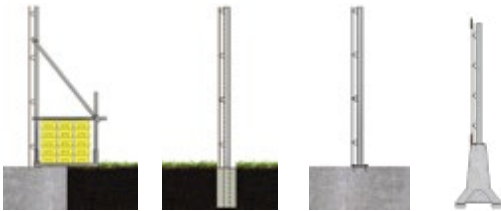

This product restricts and limits access and should never be used as a substitute to active supervision. Supervision is vital to prevent drownings or water related injuries.

EXTERNAL HOARDING

No construction site is complete without security and protection. Hoarding is a vital component, designed to shield your construction site from view of the public, as well as to prevent unauthorised access and prevent hazards of the construction site impacting the public. All of our Timber Hoarding complies with local & state regulations, OH&S and is tested and certified to Australian Standard AS1170.2:2021 Temporary Fencing & Hoarding. Our above ground ground/ Counterweight is compliant to AS4687 2022 Part 1 and 3.

Secure, long-lasting and cost-effective, our configurations are specifically designed to withstand the rigours of the modern building site. The development of our Hoarding Systems is guided by the highest standards of safety and consistency.

INTERNAL HOARDING

For our internal hoarding, we use TITAN, the world's leading supplier of Internal A Class Hoardings. These Engineer Certified products can free stand up to a massive 7.2 metres high!

Ideal for use in shopping centres, airports, hospitals, hotels, construction sites and more. The ability to fit them to custom sizes and spaces makes them the perfect choice to disguise any construction site, prevent hazards of the site impacting the public, and create privacy.

Our internal hoarding has ZERO fixings from floors or ceilings, meaning a faster installation process with no costly expenses after removal.

ADD-ONS & ACCESSORIES

Scan the QR code to watch our guide to fencing accessories on YouTube.

SUPPORT STAYS

Our specially designed support stays provide extra bracing strength to help prevent your temporary fence from falling over. This is often required in high wind areas to keep your fence upright and to keep to Australian Standards, if materials such as; acoustic curtains, shade cloth or advertising materials are added to your fence. Support stays can be used individually or in conjunction with our hook stays for ultimate strength and stability.

HOOK STAYS

Our specially designed hook stays act as an anchor point along the bottom of temporary fence panels to help prevent them from lifting or falling over. This is often required in high wind areas and to keep to Australian Standards, if materials such as; acoustic curtains, shade cloth or advertising materials are added to your fence. Hook stays can be used individually or in conjunction with our support stays for ultimate strength and stability.

SHADE CLOTH

Ideal for sun protection and privacy screening. Our heavy duty, UV protected shade cloth is available in a wide variety of colours and shade ratings.

Options

Shade rating: 50%, 70%, 90%

Colour options

- Black
- Blue
- Green
- Sandstone
- White

DOG BARS

Ideal for containing animals within a fenced area. Prevents children/balls going under the fence on construction sites.

Dimensions

Size: To suit 2.4m panels

Weight: 2.7kg

Finish: Hot dipped galvanised - 42 Micron

BARBED WIRE

Barbed wire is made to the highest standards, using premium grade wire.

1, 2 & 3 rows are available

OH&S: OUR CONTINUAL POLICY

We take a responsible approach to the way we work and behave, both inside and outside our organisation. As a growing business, we know we have an impact on our colleagues, our customers, the environment and our local communities, as well as on wider society and the economy.

At 1300TempFence, our number one operating priority is making sure that our company is a safe place for colleagues to work, and customers to hire from. We feel morally as well as legally responsible to provide a workplace that is safe and to equip our colleagues with the knowledge and equipment, they need to protect themselves at work while providing safe fencing and installation, to keep safe the workers on site and the general public. All our installers are fully compliant.

We're committed to providing our customers with the highest quality product at all times. We strive for excellence in everything that we do.

We provide assurance in the fact that our 1300TempFence temporary fencing has been tested and certified to fully comply with Australian Standard AS4687-2022.
