AND SO MUCH MORE!

## Leaders in complete **SITE SOLUTIONS**

With 25 years' experience in the industry, 1300TempFence has grown to be one of Australia's leading complete site solutions companies by providing competitive prices, fast, reliable service and industry leading products. We ensure that our customers can get their job done in a safe and secure environment. Whether you work in; infrastructure, civil, industrial, commercial, residential or events our goal is to provide a service that makes your job or event run that little bit smoother. With our vast experience, we know exactly what works on site. Our product range includes; temporary fencing, crowd control barriers, portable

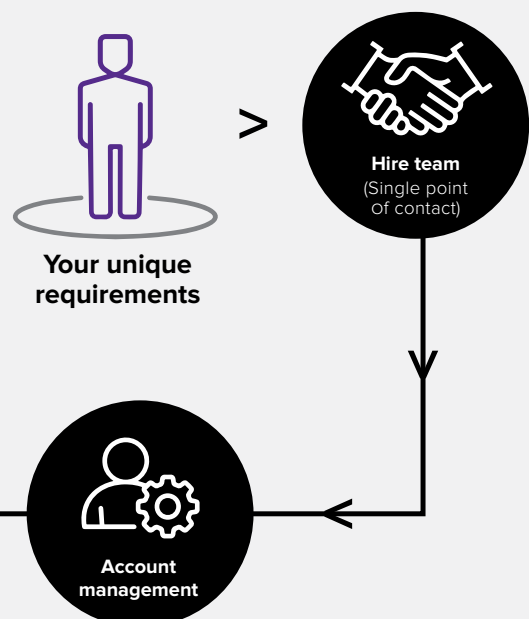

Securing Australian sites with over  
**1,500,000**  
metres of Temporary Fencing

toilets, noise reduction barriers, water filled barriers and site cameras plus much more. All our products are fully compliant to Australian Standards. With branches across the country, we have Australia covered and are proud to say we're one of Australia's preferred specialists in temporary fence hire and sales.

## Dedicated **ACCOUNT SUPPORT**

We provide dedicated account support. This combined with our proven, robust management structure enables close effective communication, while maintaining operational efficiency and the continual ability to meet our customers' needs.

Founded by brothers, Martin Fouracre, Bruce Fouracre and Mark Eaves in 1999, 1300TempFence has since grown to become one of Australia's largest equipment hire and sales businesses. The Ready Industries Group of businesses encompasses the following brands and products; 1300TempFence, Site HQ, 1300Hoarding, 1300SiteCam, 1300Dunnys and Signage HQ (formerly TPSCC) among others.

As our business has grown, we've continued to add key personnel to our senior management structure to ensure our level of service to our clients is of the highest standard.

The Managing Directors and Senior Management Team combined, possess over 100 years of Equipment Rental and Hire Industry experience across a range of different markets and product categories.

*“We’re in a service business. Our success is built off the service we provide for our customers. So, we focus on doing it right the first time, to keep our customers happy”*

**Bruce Fouracre** | Director 1300TempFence

## TEMPORARY FENCE

Temporary construction fence is vital when it comes to managing and protecting your work site. Whether the need is to prevent the public from entering a hazardous site, to providing security from equipment theft, to ensuring health and safety requirements are met, we have a temporary fencing solution to help you. Our infrastructure systems have been specially designed and engineered to perform on any major project and with our unwavering commitment to OH&S and use of quality products we can provide unrivalled site security and safety solutions.

### Capabilities include:

- Any size site, any hire period
- Fully engineered systems
- Night & weekend works

### Projects include:

- Road
- Rail
- Bridges
- Tunnels
- Airports
- Telecomms
- Water
- Ports
- Energy
- Sewers

## CROWD CONTROL BARRIERS

Running a construction site, event or gathering? Crowd control barriers are a must for creating a safe and secure environment.

Whether for employees, guests, or the general public; it's important to have the appropriate temporary fencing solution to suit your situation. Crowd control barriers are vital for maintaining safe crowd flow. At 1300TempFence we have the expertise to ensure your work site or event is both safe and secure, keeping people away from potential hazards while ensuring the safe movement of people.

Our strong, sturdy and durable crowd control barriers are lightweight and easy to install. With stable flat feet they reduce the risk of tripping and have holes for pegging or dyna-bolting.

Also available in the range are our Crowd Control Pedestrian Gates.

## SEMI PERMANENT FENCING

When you require something stronger and sturdier than normal temporary fence. Then you need our semi-permanent fencing. We have two options available; **Rammed Post** and **Spike Post**.

Our **Rammed Post** system has thick walled posts which are driven into the ground, and clamped to the panels.

Our **Spike Post** system features a spike which is driven into the ground first, with the pipe inserted into the spike's receiving slot.

Both systems are specially engineered and designed to withstand very harsh conditions and high wind forces. We can advise, which is suitable for your site.

### Benefits:

- No need to use temporary fence feet and bracing
- No tripping hazards

## PLASTIC SHEET TEMPORARY FENCING

Made from High Density Polyethylene (HDPE) sheets and attached to our sturdy MAXI 2.4m panels, our plastic sheet fencing system provides a great alternative to traditional plywood hoarding, while being extremely quick and easy to install.

### Benefits:

- Full block-out and maximum privacy for your site
- No need for shade cloth attachment
- Faster install option than plywood hoarding

Perfect for small or large construction sites, these panels comply with the Australian Standard AS4687-2022 for temporary fencing and hoarding.

## NOISE REDUCTION BARRIERS (Acoustic Curtains)

Our noise reduction barriers are a must to help protect local communities and employees from the harmful effects of excessive noise. Designed using world-leading acoustic technology they are made from high quality, lightweight, water resistant PVC to provide the most effective temporary sound solution. Our premium barriers are low centred to ensure noise can't penetrate beneath and with a strong insulated core they provide up to 18 decibels of sound absorption performance.

### Benefits:

- Easy to install
- Work in public spaces
- Use bigger machinery
- Conduct night works
- Reduce event generator noise
- Indoors & outdoor

## WATER FILLED BARRIERS (SHIELD 1 / KI 1000 / X-SITE / X-STREAM)

Water filled barriers are a great safety barrier solution. Suitable for traffic management, work sites and for crash protection. Our water filled barriers will help stop, contain and re-direct an impacting vehicle. Easy to install and manoeuvre, our barriers are highly visible, sturdy and durable.

Our **Shield 1** barrier is made from a patented composite design, utilising a high strength modified UV stabilised polyethylene. Easy to install with steel connecting pins, this Australian made, re-directive barrier is approved by road authorities Australia wide.

The **KI 1000** Barrier has been designed specifically as a pedestrian and medium speed zone barrier. This barrier is easy to install with a simple interlocking system that allows the barriers to remain connected while moving through angles up to 120° each way. Fitted with reflective tape, these highly visible barriers have two apertures topside for the fitment of hazard lights, pole signage or extended mesh fencing. Complies with Australian Standard AS1742-3-2019 Traffic Control Devices for works on roads.

**X-SITE**

**SALES ONLY**  
Available from  
sitehq.com.au

**X-STREAM**

Our **X-Site** is a heavy-duty pedestrian zone barrier is perfect for delineating crowd flow. Making it the ideal choice for road closures for events or construction sites where traffic management is in place. Easy to install, with a simple interlocking system, this versatile water filled barrier can be easily fitted with anti gawk screens and fence tops for added privacy.

Looking for something more robust than your standard crowd control barrier? The **X-Stream** Water Filled Barrier, is lightweight, easy to manoeuvre and install. Water is filled to only 25% capacity, making this barrier a great low cost option and ideal for use on building sites to delineate walk ways.

## ACCESSORIES & ADD ONS ARE ALSO AVAILABLE

## SOLAR / WIRELESS SITE CAMERAS

Monitor and protect your site and assets with our solar/wireless security camera systems. Available as either single or double camera units with the option of either above ground or in ground installation. Reduce the risk of theft and gain peace of mind that your site or venue has complete 24/7 visibility.

### Benefits:

- Solar & battery powered
- Uses Telstra 4G wireless internet
- High quality 4K camera
- Advanced motion detection up to 20m range
- Email and push notifications to your mobile or tablet when motion is detected
- Flood light & strobe light can activate when motion is detected
- We can also provide Site Monitoring, if this is of interest, please let us know.

Solar & battery (no power needed)	24/7 Live view (smart phone / tablet)	Artificial intelligence (motion detection)	Alert emails with 3 photos & app push notifications	Telstra 4G wireless internet	Flood & strobe light (on motion detection)	Night vision mode (30m motion detection)	4MP wide angle camera lens	Water & dust resistant (IP67)

## DETECTION & COVERAGE RANGE

CAMERA TYPE	SINGLE TURRET	DOUBLE TURRET
Turret Camera	104° 60M Day 30M Night	2x 104° 2x 60M Day 2x 30M Night
180° / 360° Camera	180° 60M Day 30M Night	360° 2x 60M Day 2x 30M Night
PTZ Camera	90° 60M Day and Night	-

ColorVu Technology enables cameras to produce colourful videos. It's large aperture provides vivid and colorful images even in low light, prevents reflections and loss of details caused by infrared lighting and over exposure.

## PORTABLE TOILETS

Portable toilets can be an essential requirement when you are running a construction site or event.

We provide safe, comfortable and hygienic portable toilets that are modern in design, yet ergonomically friendly. All our toilets come with a fresh water flush for increased sanitation and cleanliness. Reducing the spread of waste and germs.

We offer weekly, fortnightly, monthly & on demand service & pump outs.

Looking to create visual impact with your hoarding?  
Our team can help, ask us how!

## EXTERNAL HOARDING

No construction site is complete without security and protection. Hoarding is a vital component, designed to shield your construction site from view of the public, as well as prevent unauthorised access and hazards of the construction site impacting the public. All of our Timber Hoarding complies with local & state regulations, OH&S and is tested and certified to Australian Standard AS1170.2:2021 Temporary Fencing & Hoarding. Our above ground ground/counterweight is compliant to AS4687 2022 Part 1 and 3.

Secure, long-lasting and cost-effective, our configurations are specifically designed to withstand the rigours of the modern building site. The development of our Hoarding Systems is guided by the highest standards of safety and consistency.

## INTERNAL HOARDING

For our internal hoarding, we use TITAN, the world's leading supplier of Internal A Class Hoardings. These Engineer Certified products can free stand up to a massive 7.2 metres high!

Ideal for use in shopping centres, airports, hospitals, hotels, construction sites and more. The ability to fit them to custom sizes and spaces makes them the perfect choice to disguise any construction site, prevent hazards of the site impacting the public, and create privacy.

Our internal hoarding has ZERO fixings from floors or ceilings, meaning a faster installation process with no costly expenses after removal.

## PRINTED MESH BANNERS

Signage HQ (formerly TPSCC) specialise in producing high quality Printed Shade Cloth products to help you market and grow your business.

Our in-house Graphic Designers will provide you with expert advice tailored to your job requirements.

## OH&S OUR CONTINUAL POLICY

We take a responsible approach to the way we work and behave, both inside and outside our organisation. As a growing business, we know we have an impact on our colleagues, our customers, the environment and our local communities, as well as on wider society and the economy.

At 1300TempFence, our number one operating priority is making sure that our company is a safe place for colleagues to work, and customers to hire from. We feel morally as well as legally responsible to provide a workplace that is safe and to equip our colleagues with the knowledge and equipment,

they need to protect themselves at work while providing safe fencing and installation, to keep safe the workers on site and the general public. All our installers are fully compliant.

We're committed to providing our customers with the highest quality product at all times. We strive for excellence in everything that we do.

We provide assurance in the fact that our 1300TempFence temporary fencing has been tested and certified to fully comply with Australian Standard AS4687-2022.

## Engineered TEMPORARY FENCING

At 1300TempFence, we take pride in supplying industry leading, fully engineered systems, so you don't need to worry about issues with compliance or safety.

All systems are certified by third party engineering consultants and all relevant engineering documents will be provided to you throughout the quoting and installation stages of your project.

All testing documents have been prepared in accordance with the following Australian Standards: AS 4687 – 2022 Temporary Fencing and Hoardings.
