ABOUT US

1300TempFence is Australia's preferred specialist in temporary fence hire. Backed by over 25 years experience in the industry, we offer complete site solutions alongside competitive prices, fast reliable service and industry leading products.

We ensure that our customers can get their job done in a safe and secure environment. Whether you work in; infrastructure, civil, events, residential, government, commercial, landscaping, industrial or demolition our goal is to provide a service that makes your job or event run that little bit smoother. With our vast experience, we know exactly what works on site. All our products are fully compliant to Australian Standards.

25
YEARS
TOGETHER IN BUSINESS

OUR VALUES

Our Mission:

We're ready to lead by offering solutions and value, set to achieve sustainable, profitable growth, by investing in our people, products and processes so that we can go out there and deliver the best customer experience.

INNOVATION

Harness our drive and passion to continually question everything we do. Challenge, change and commit.

OUR FOUNDATION

Treat everyone as we want to be treated, with honesty, integrity and respect.

TEAMWORK

Together we will challenge and support, collaborating on the things that will make a difference.

CUSTOMER

Being truly service focused, offering value and solutions and striving for 100% satisfaction is essential.

1300TEMPFENCE ***...AND SO MUCH MORE!***

EXPLORE OUR PRODUCT RANGE

With 25+ years industry experience, we know what works on your site.

- Temporary fencing
- Semi-permanent fencing
- SmartWall
- Water filled barriers
- Traffic management & ground protection
- Portable toilets
- Engineered fencing
- Additional fencing options
- Crowd control barriers
- Site security cameras
- Noise reduction barriers (Acoustic curtains)
- Hoarding

TEMPORARY FENCING

Temporary fence is vital when it comes to managing and protecting your work site or event. Whether the need is to prevent the public from entering a hazardous site, limiting access, providing security, or ensuring health and safety requirements are met, we have a temporary fencing solution to help you. Our fencing has been specially designed and engineered to perform on any major project or large scale event to ensure safety and compliance.

With our unwavering commitment to OH&S and use of quality products we can provide unrivalled site security and safety solutions.

CAPABILITIES INCLUDE:

- Any size site, any hire period
- Fully engineered systems
- Night & weekend works

PROJECTS INCLUDE:

- Events
- Road & rail
- Bridges
- Tunnels
- Airports
- Telecommunications
- Water
- Ports
- Energy
- Sewers

**OUR STANDARD PANEL DETAILS

Panel size	3300mm (W) x 2100mm (H)
Frame	32mm O.D. - 2mm pipe wall thickness
Infill mesh	4mm x 4mm, 150mm x 60mm spacings
Weight	30kg
Finish	Galvanised

**OUR STANDARD PANEL DETAILS
FOR WA, QLD & SA**

Panel size	2400mm (W) x 2100mm (H)
Frame	32mm O.D. - 2mm pipe wall thickness
Infill mesh	4mm x 4mm, 150mm x 60mm spacings
Weight	22kg
Finish	Galvanised

ACCESSORIES & ADD-ONS

STAYS

Providing extra bracing strength and anchors to help prevent temporary fence from falling. See next page for further detail.

DOG BARS

Ideal for containing animals in a fenced area. Also prevents kids/balls going under fencing.

HAND RAILS

Reduce the potential trip hazard from fence feet protruding into pedestrian traffic areas.

GATE WHEELS

Attach to pedestrian gates or panels, allowing gates to be opened and closed more easily.

BARBED WIRE

1, 2 & 3 rows are available. Made to the highest standards, using premium grade wire.

PEDESTRIAN GATE

Provides personnel entrances and exits to your temporary fence installations.

ENGINEERED TEMPORARY FENCING

At 1300TempFence, we've assisted on numerous major projects. Our systems are all tested and certified by third party engineering consultants. We ensure the necessary relevant engineering documents are provided to you throughout the quoting and installation stages of your project.

We have engineered bracing solutions that can service windspeeds up to 147km/h

WHY USE OUR ENGINEERED TEMPORARY FENCE?

All of our temporary fencing is tested to be compliant with the most current version of the Australian Standard for Temporary Fencing AS-4687:2022.

We have engineered different bracing solutions to suit multiple wind speeds, to service the minimum requirement of Stability Class fence at 54km/hr right up to **147km/h** depending on your site's specific requirements.

CAPABILITIES INCLUDE:

- More wind resistant than standard temporary fence
- Fully engineered system
- Certified by third party engineering consultants
- Designs specifically for shade cloth and printed mesh installations

SUITABLE FOR:

- Major road and infrastructure works
- Events
- Civil
- Industrial
- Government
- Residential and commercial

Australian Standard

AS4687 - 2022
Temporary Fencing
and Hoardings

ACCESSORIES & ADD-ONS

SUPPORT STAYS

Providing extra bracing strength and anchors to help prevent temporary fence from falling.

HOOK STAYS

Providing extra bracing strength and anchors to help prevent temporary fence from falling.

SHADE CLOTH

We offer a wide range of colours, densities and widths. Ask about wind proof options.

SEMI- PERMANENT FENCING

When you require something stronger and sturdier than normal temporary fence. Then you need our semi-permanent fencing.

Suitable for most civil, commercial, residential, major road and infrastructure works and large scale events and gatherings. We have two options available; Rammed Post and Spike Post.

RAMMED POST SYSTEM

Has thick walled posts which are driven into the ground, and clamped to the panels.

SPIKE POST SYSTEM

Features a spike which is driven into the ground first, with the pipe inserted into the spike's receiving slot.

Both systems are specially engineered and designed to withstand very harsh conditions and high wind forces. We can help advise, which is best suited for your site.

THE ADVANTAGES OF SEMI-PERMANENT FENCING ARE:

- No need to use temporary fence feet and bracing
- No tripping hazards
- No concreting required, no residual damage
- Stronger and sturdier than traditional temporary fence

ALTERNATIVE FENCING

At 1300TempFence, we also offer a range of alternative fencing options. So whether your looking for a stylish presentation for an upcoming event, or need a temporary fence that is compliant as a barrier for swimming pool safety, we have you covered.

With our unwavering commitment to OH&S and use of quality products we can provide unrivalled site security and safety solutions.

CAPABILITIES INCLUDE:

- Any size site, any hire period
- Fully engineered systems
- Night & weekend works

PROJECTS INCLUDE:

- Events
- Ports
- Sewers
- Road & rail
- Tunnels
- Residential
- Water
- Energy
- Telecommunications
- Bridges
- Airports

ALTERNATIVE FENCING OPTIONS

TEMPORARY PRESTIGE FENCING

Ideal for when a smarter presentation or extra security is required. Anti-climb vertical piping is a smarter looking alternative to a standard weld mesh temporary fence.

WHITE PICKET FENCING

High quality, stylish temporary event fencing. Low profile feet reduce the risk of tripping while maintaining safe crowd flow.

TEMPORARY POOL FENCING

Restrict and limit access to your pool area. Combine with our self closing temporary pool gate.*

*Should never substitute active supervision. Compliant with AS 4687 2022 - Swimming Pool Safety - Safety Barriers for Swimming Pools

PLASTIC SHEET FENCING

Providing full blackout, this is a convenient alternative to traditional plywood hoarding. Made from high density polyethylene.

PRINTED FENCE BANNERS

A long lasting, high quality mesh. We can help with full colour and photo image printing to provide visual impact. Ask us for more details.

SAFETY SIGNAGE

Essential for any workplace, to provide heightened safety awareness for both employees and visitors. Suitable for indoor and outdoor use.

INTRODUCING THE SMARTWALL

State of the art in design, the NEW SmartWall utilises our temporary fence panel with a simple, yet effective, one-piece water filled barrier base.

Engineer certified to meet stability class AS 4687:2022

SMART WALL

Our new SmartWall features a compact, narrow design that minimises tripping hazards. The low profile prevents objects from sliding underneath and the sloping sides deter climbing. It's strong and durable, with a brightly colored base that ensures maximum visibility. Its sleek aesthetic makes the SmartWall ideal for high-profile sites where maximising the work area is essential.

Dimensions: 2385mm (L) x 464mm (H) x 388mm (W)
(height with fence panel 2100mm)

Capacity: 273 litres

Weight: 31kg (unfilled)

Australian designed and engineer certified to AS 4687:2022

FEATURES AND BENEFITS:

- Sleek aesthetic, ideal for high profile sites
- Narrow footprint, less encroachment on footpaths
- Easy to install or relocate with it's simple one-piece design
- Easy to lift handles on side and middle
- Cost effective transport, 36 SmartWalls = only 4 standard pallet spaces
- Low profile prevents anything sliding underneath
- Ideal for Infrastructure, Civil and Events

CROWD CONTROL BARRIERS

Managing a construction site or large scale event? Crowd control barriers are a must for creating a safe and secure environment to maintain safe crowd flow.

Whether it's for employees, guests, or the general public; it's important to have the appropriate temporary fencing solution to suit your situation.

Over the years we have supplied crowd control barriers to festivals, concerts, exhibitions, sporting events and work sites. We have the expertise to ensure your work site or event is both safe and secure, keeping people away from potential hazards while ensuring the safe movement of people.

Our strong, sturdy and durable crowd control barriers are lightweight, with stable flat feet. To reduce the risk of tripping further, the feet have holes for pegging or dyna-bolting.

Our crowd control barriers are 2.2m wide x 1.1m high.

CAPABILITIES INCLUDE:

- Any size site, any hire period
- Fully engineered systems
- Night & weekend works

PROJECTS INCLUDE:

- Events
- Telecommunications
- Road & rail
- Water
- Bridges
- Ports
- Tunnels
- Energy
- Airports
- Sewers

LOOKING TO CREATE IMPACT?

We can also provide crowd control barrier slips and signage. We work closely with a team of experienced graphic designers who can ensure your site or event has the visual impact, improved safety and brand awareness. Interested? Chat to us today for more details.

ACCESSORIES & FINISHES

PEDESTRIAN GATE

Provides entrances and exits, ideal for public safety at events or work sites.

GALVANISED FINISH

Our galvanised crowd control barrier is ideal for events and public gatherings.

ORANGE FINISH

Provides high visibility for added safety hazard identification.

WATER FILLED BARRIERS

Water filled barriers are a great safety barrier solution. Suitable for traffic management, work sites and for crash protection.

Our water filled barriers will help stop, contain and re-direct an impacting vehicle.

Easy to install and manoeuvre, our barriers are highly visible, sturdy and durable.

MASH TEST LEVEL 1

APPROVED

SHIELD 1

This safety crash barrier is made from a patented composite design, utilising a high strength modified UV stabilised polyethylene. This Australian made, re-directive barrier is approved by road authorities Australia wide. MASH test level 1 certified.

(2,270kg at 50km/h and 25° accepted dynamic deflection 2.2m)

KI 1000

Designed specifically as a pedestrian and low speed zone barrier. This barrier has a simple interlocking system that allows the barriers to remain connected while moving through angles up to 120° each way. Fitted with Class 1 reflective tape, these highly visible barriers have two apertures topside for the fitment of hazard lights, pole signage or extended mesh fencing. Complies with Australian Standard AS1742-3-2019 Traffic Control Devices for works on roads.

ACCESSORIES & ADD-ONS

SHIELD 1 FENCE TOPS

Our Shield 1 can each be fitted with extended mesh fence panels.

KI 1000 FENCE TOPS

Our KI 1000 can each be fitted with extended mesh fence panels.

PRINTED BANNERS

Provides privacy while promoting your brand or event. Interested? Ask us for more details.

SITE SECURITY CAMERAS

1300SiteCam strives to offer the best in Site Security services. Our Solar/Wireless Security Camera Systems monitor and protect your site and assets, with 24/7 visibility. Take control and reduce your risk of theft and crime. Whatever your site requirements, we have a camera to suit your needs, with in-ground, above-ground and container mount installation options.

SMART MOTION DETECTION

Our AI motion detection technology helps you to focus on human and vehicle events. The device will only trigger an alarm when the preset intrusion type (*human or vehicle*) takes place, videos related to alarm events are sorted into human and vehicle categories for easier footage searches.

IN-GROUND

- 1 x 4m steel pole
- 1 x secure in-ground spike

ABOVE-GROUND

- 1 x 4m steel pivoting pole
- 1 x above-ground, weighted modular steel base, forkliftable

CONTAINER MOUNTED

- 1 x 1.2m extension pole
- 1 x anti tamper lockable shipping container mount

ALL MODELS INCLUDE:

Solar & battery
(no power needed)

24/7 Live view
(smart phone / tablet)

Artificial intelligence
(motion detection)

Alert emails
with 3 photos & app push notifications

Telstra 4G wireless internet

Flood & strobe light
(on motion detection)

Night vision mode
(30m motion detection)

4MP wide angle camera lens

Water & dust resistant
(IP67)

ACCESSORIES & ADD-ONS

DATA PLAN

Data plan & configuration p/month p/unit.

SECURITY MONITORING

1300SiteCam can provide 24/7 site monitoring.

TIME LAPSE

Photos are captured (every 30mins) and merged into a time lapse video.

TRAFFIC MANAGEMENT & GROUND PROTECTION

We offer ground protection solutions to prevent vehicles getting stuck in soft ground and steel road plates to keep roads safe.

We also offer a wide range of sales products that aid traffic management and work site safety through the sales arm of our business, Site HQ.

STEEL ROAD PLATES

Steel road plates have a variety of uses on construction sites, from driveway access for cars, large trench crossings for construction site traffic, to covering of pits in roadways. Compliant to Australian Standards, our steel road plates have a certified central lifting point and holes in each corner to aid safe and efficient handling. We have two options available: Construction Steel Plates and Road Plates (coated). Both options come in a range of sizes ranging from 25mm to 40mm in thickness.

GROUND PROTECTION MATS

Our ground protection mats (bog mats / track mats) protect grass and soft ground from tyres and prevent vehicles from getting stuck. They are moulded from a special grade of UV-stabilised recycled polyethylene resin which is designed for long outdoor life and durability. The material used allows the mats to flex without breaking even under the weight of a heavy truck, while being rigid enough to spread the wheel load. Our ground protection mats are 2400mm x 1200mm.

ACCESSORIES & ADD-ONS

SALES ONLY

TRAFFIC CONES 700MM

Suitable for marking out hazards on the road, public area or work site.

SALES ONLY

TRAFFIC BOLLARDS & BASES

1150mm high with a 6kg 420mm x 420mm base.

SALES ONLY

SAFETY FLAGS / BUNTINGS

Ensure you have high visibility around your work site or hazard.

NOISE REDUCTION BARRIERS

(ACOUSTIC CURTAINS)

Noise reduction barriers are an essential element on construction projects to mitigate noise pollution emanating from the site. Allowing you to remain compliant and ensure noisy works are allowed to continue – even after hours and in residential areas.

Designed using world-leading acoustic technology, our noise reduction barriers, otherwise known as acoustic curtains, are made from high quality, lightweight materials, with the outer layer finished with water resistant PVC. Providing the most effective temporary sound solution, our noise reduction barriers protect employees and local communities from the harmful effects of excessive noise.

Our premium barriers are low centered to ensure noise can't penetrate beneath and with a strong insulated core they provide up to 18 decibels of sound absorption performance.

BENEFITS:

- Work in public spaces
- Use bigger machinery
- Conduct night works
- Reduce event generator noise
- Suitable for both indoor & outdoor use

SUITABLE FOR:

- Infrastructure projects
- Housing development sites
- Local events and much more...

INSTALLATION:

Our curtains are fitted with eyelets for easy attachment to temporary fencing/scaffolding on your site. They also come with a velcro strip securing each panel side by side for large scale noise reduction.

Scan the QR code to view our noise reduction barriers in action.

ACCESSORIES & ADD-ONS

SUPPORT STAYS

Providing extra bracing strength and anchors to help prevent temporary fence from falling.

HOOK STAYS

Providing extra bracing strength and anchors to help prevent temporary fence from falling.

CABLE TIES

Packs of 100 available in a range of sizes to suit your needs.

HOARDING

1300Hoarding are specialists in the design and installation of robust, secure Engineer Certified Hoarding Systems. Providing unrivalled quality in construction, event and internal/retail hoarding.

Our experienced team have standard engineered designs ready to go and can advise on the best hoarding solution to suit your site including customised options and high quality finishes to ensure a sleek and professional look.

All our hoarding is engineer certified to the most current version of the Australian Standard for Temporary Hoarding AS 4687:2022

AS1170.2 - 2021
Temporary Fencing and Hoardings

ASK US ABOUT CUSTOM BRANDING OPTIONS

Our in-house team of qualified designers can help create decals, banners and signage to help promote your brand or event.

EXTERNAL HOARDING (A-CLASS)

Our robust, secure Engineer Certified Hoarding Systems options:

- Counterweight Above Ground Hoarding is engineered to AS 4687:2022 – suitable for all ground types (no ground damage)
- In Ground Hoarding is engineered to AS1170.2:2021 – suitable for permeable ground surfaces
- Dyna Bolted Hoarding is engineered to AS1170.2:2021 – suitable for concrete slab surfaces
- Jersey Kerb Hoarding – where protection from potential vehicle impact is required
- Standard height 2.4m (can be customised)

INTERNAL/ RETAIL HOARDING

1300Hoarding is the proud supplier of the Engineer Certified Titan Hoarding System. The market leader for indoor hoarding applications.

- Ideal for retail shopping centres, commercial offices and hospitals
- Where public access must be restricted
- Can be built free-standing to 7.2m high, eliminating damage to floors and bulkheads
- Seamless barrier to noise and dust

To find out more about 1300Hoarding please visit 1300Hoarding.com.au

PORTABLE TOILETS

Portable toilets can be an essential requirement when you are running a construction site or event.

CRANE LIFTING HOOKS

Our toilets are engineer certified to be lifted by crane onto building sites.

PORTABLE TOILETS

We provide safe, comfortable and hygienic portable toilets that are modern in design, yet ergonomically friendly.

ACCESSIBLE PORTABLE TOILETS

Our wheelchair-accessible toilets are essential for events, to provide those with a mobility impairment or physical disability safe, convenient and comfortable access to a portable toilet.

All our toilets come with a fresh water flush for increased sanitation and cleanliness. Reducing the spread of waste and germs. We offer weekly, fortnightly, monthly on demand service and pump outs.

ACCESSORIES & ADD-ONS

TOILET CHEMICAL

Walex Porta-Pak toilet chemicals (bag of 50).

TOILET DEODERISOR DISCS

Exodor (bag of 100).

TOILET PAPER

3 ply double length toilet paper rolls made from 100% recycled fibres.

OH&S

OUR CONTINUAL POLICY

We take a responsible approach to the way we work and behave, both inside and outside our organisation. As a growing business, we know we have an impact on our colleagues, our customers, the environment and our local communities, as well as on wider society and the economy.

At 1300TempFence, our top priority is ensuring that our company is a safe environment for both our colleagues and our customers. We are committed to providing a workplace that meets high safety standards, while equipping our team with the necessary knowledge and equipment to protect themselves on the job. This commitment extends to delivering safe fencing solutions and installations to protect both the workers on site and the general public. We ensure all our installers are fully compliant.

We're committed to providing our customers with the highest quality product at all times. We strive for excellence in everything that we do.

We provide assurance in the fact that our 1300TempFence temporary fencing has been tested and certified to fully comply with Australian Standard AS4687-2022.

WHO WE'VE WORKED WITH

KEY PROJECTS

At 1300TempFence, we take pride in creating and nurturing our long-standing relationships with our valued customers.

Some recent key projects include:

MAJOR PROJECTS

Melbourne Airport T5

Brisbane Metro

Westgate Tunnel Project

Altona Pier Project

Kardina International College

EVENTS

Australian Formula 1 Grand Prix

AFL Grand Final Gather Round

Sydney Pride March

Avalon Airshow

Ironman

SPORTING EVENT CASE STUDY:
**AFL GRAND FINALS
 & GATHER ROUND**

With our head office based in Melbourne, we've always taken great pride in our involvement with the AFL Grand Final. From the Grand Final Village, September Club, Footy Festival to the Grand Final Parade, Melbourne comes alive during Grand Finals Week and 1300TempFence are there every step of the way to ensure that this fantastic week-long event runs smoothly. Bump in requires extra vigilance, as we work alongside the public who are strolling or using electric scooters nearby. Overall, we were contracted to supply and install:

Grand Final Village:

- 450 metres of Engineered Fence
- 150 metres of Crowd Control Barriers
- 144 metres of Weed Mats
- 450 metres of Printed Banners from our sister company, Signage HQ

Footy Festival:

- 785 metres of Engineered Fence
- 123 metres of Temporary Fence
- 1.75 km of Crowd Control Barriers
- 472 metres of White Picket Fence
- 785 metres of Weed Mats
- 118 custom-made White Temporary Fence Feet

September Club:

- 941 metres of Engineered Fence
- 220 metres of Crowd Control Barriers
- Installation of 941 metres of Banners

Grand Final Parade:

- 320 metres of Engineered Fence
- 6 km of Crowd Control Barriers

To deliver, the Gather Round in South Australia, was also no small task. It took three weeks to install at Mt Barker, with 8 semis and two crews working daily, and one week for Elder Park. The Pinky Flat and Norwood locations were installed in one day each. To ensure installation was completed in time, our teams worked weekends and after hours. It's safe to say that the AFL Gather Round, Festival of Footy was a fantastic success that we were proud to be a part of.

SPORTING EVENT CASE STUDY:
**AUSTRALIAN FORMULA
 ONE GRAND PRIX**

Ready Industries and 1300TempFence have been supplying the Australian Formula One Grand Prix for a number of years. The Formula One Grand Prix is at the forefront of International events hosted by Melbourne and Australia, rivaled only by the Australian Open Tennis as true international events. Our contract requires us to deliver and install in excess of 30km of fencing, which includes:

- Temporary Fence
- Site Cameras
- Crowd Control Barriers
- Semi-Permanent Fence
- Water Filled Barriers

To deliver the event, we appoint the following key personnel:

- Contract Manager
- Leading Hand x 2
- Project Manager
- Labour x 6

This team is based out at Albert Park for 4 months, working out of a site based compound and utilizing 3 trucks and up to 3 x buggy forklifts to deliver the job. During event week, the team operates 2 standby crews, one inside and one outside the track to deal with any issues that arise whilst the event is live.

MAJOR PROJECT CASE STUDY:
BRISBANE METRO PROJECT

We here at 1300TempFence are proud to be aiding the Brisbane Move project. With multiple sites across Brisbane, all with their own unique challenges, our Queensland branch have successfully supplied engineer certified and council approved solutions to suit the different wind strength ratings across the many sites. Utilising both our hire and sales divisions we have supplied this project with over 1.86km of engineered spec fencing and sold over 270 crowd control barriers plus much more. Working in conjunction with Signage HQ we have provided branded custom mesh banner to promote this project across the city, while retaining safety and security at the multiple sites.

No. of sites we have delivered to
15 project sites across Brisbane.

No. of deliveries
37 separate deliveries to date.

Meterage delivered
1.86km of Engineered Spec Fence (both 64km and 86km spec engineered spec fence). 1.42km of Crowd Control Barriers.

MAJOR PROJECT CASE STUDY:
MELBOURNE AIRPORT T5

Getting to Terminal 4 at Melbourne Airport is going to get faster and easier with the creation of a much-needed express road connecting the terminal to the freeway. One of our great clients, Seymour Whyte have been engaged as principal contractor to deliver the design and construction of this elevated road.

We're proud to be able to aid them in this important project, by supplying several engineered design solutions to suit this complex site. Including; 600mm rammed post semi-permanent fencing, 450mm jack hammered spike systems, KI 1000 delineation water barriers and Shield 1 TL-1 50km/h rated water barriers. To ensure the car park remains open to pedestrians and vehicles, while keeping everyone safe while construction is underway.

We look forward to seeing this major project progress and the creation of an improved traveller experience from freeway to runway.

HERE'S WHAT OUR CUSTOMERS HAVE TO SAY

Thank you 1300TempFence. You and your team's contributions are immensely appreciated, and we could not have delivered such a successful event for teams, fans and staff without it.

MATTHEW WALTON

*Australian Grand Prix Corporation
Australian Formula 1 Grand Prix*

1300TempFence provided temporary fencing around the Westmead Children's Hospital Precinct as part of the stage 2 works.

The quick and client-detailed service by the customer/sales representative, competitive pricing, and quality of materials made 1300TempFence stand out from the other options.

CHRIS CHAU

*Project Manager
Kane*

The 1300TempFence team were extremely professional and easy to deal with.

I appreciated their ability to respond to requests at their earliest convenience and their clear communication throughout the project.

IAN SZKIRKA

*Plan Group - Kardina
International College*

What set 1300TempFence apart from other options was their customer service right from the beginning. The team were proactive in planning and communicating with us before the event, ensuring everything was well prepared and ready for the big day.

JULIE TEDDE

Sole Motive / Run Melbourne

Outstanding service! Nat is a highly dependable Account Representative and always provides efficient solutions for us - often on tight timeframes. This ensures seamless site safety and compliance outcomes every time.

JOSH STALEY

*Director
P&H Civil Landscape*

I'm glad we have the pleasure of working with 1300TempFence, great communicators, a wide range of products and we are always left knowing the job will be done properly. However, the biggest advantage of working with 1300 is the people, always willing to help, friendly and knowledgeable with their products.

DAVID ODORISIO

*Site Manager – Hutchies/
Hutchinson Builders*
