LEADERS IN COMPLETE SITE SOLUTIONS

With over 25 years' experience in the industry, 1300TempFence has grown to be one of Australia's leading complete site solutions companies by providing competitive prices, fast, reliable service and industry leading products. We ensure that our customers can get their job done in a safe and secure environment.

Our goal, is to provide a service that makes your event run that little bit smoother. With our vast experience, we know exactly what works on site. Our product range includes; temporary fencing, crowd control barriers, white picket fencing, portable toilets, noise reduction barriers, water filled barriers and site cameras. Plus plenty more!

With branches across the country, we have Australia covered and are proud to say we're one of Australia's preferred specialists in temporary fence event hire and sales.

"We're in a service business. Our success is built off the service we provide for our customers. So, we focus on doing it right the first time, to keep our customers happy"

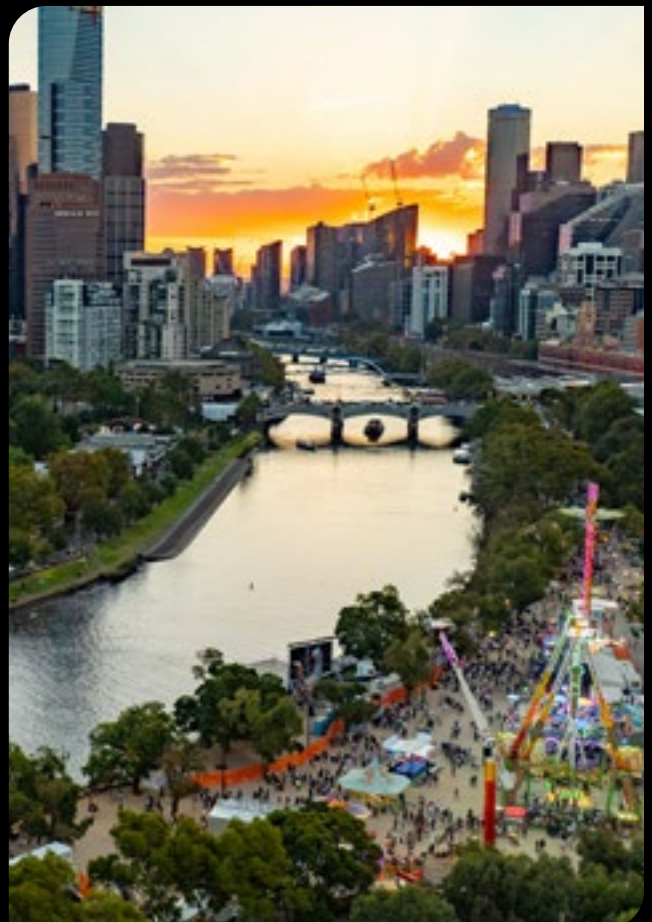

Bruce Fouracre | Director 1300TempFence

25⁺
YEARS
TOGETHER IN BUSINESS

ABOUT US

Founded by brothers, Martin and Bruce Fouracre along with their friend Mark Eaves, in 1999, 1300TempFence has since grown to become one of Australia's largest equipment hire and sales businesses.

The Ready Industries Group of businesses encompasses the following brands; 1300TempFence, Site HQ, 1300Hoarding, 1300SiteCam, 1300Dunnys and Signage HQ among others.

DEDICATED ACCOUNT SUPPORT

We provide dedicated account support, backed by a proven, robust management structure. This enables clear, effective communication, while maintaining operational efficiency and consistently meeting our customers' needs.

OH&S: OUR CONTINUAL POLICY

We take a responsible approach to the way we work and conduct ourselves, both within and outside our organisation. As a growing business, we recognise our impact on our colleagues, our customers, the environment and our local communities, as well as on wider society and the economy.

At 1300TempFence, our top operating priority is ensuring a safe environment for both our employees and our customers. We see it as both a moral and legal responsibility to provide a safe workplace and to equip our team with the knowledge and tools they

need to protect themselves on the job.

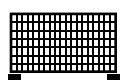

To ensure we limit any negative environmental impact arising from our day-to-day business operations, we commit our people and resources to help reduce polluting emissions and regulate our use of natural resources wherever possible. We recognise that the CO2 emitted by our transport activity is the largest single impact we have on the environment. We are working diligently to reduce this through becoming increasingly vehicle and fuel efficient.

"We're committed to providing our customers with the highest quality product at all times. We strive for excellence in everything that we do."

Bruce Fouracre | Director 1300TempFence

EXPLORE OUR PRODUCT RANGE

TEMPORARY FENCING

Our infrastructure systems have been specially designed and engineered to perform on any major event across Australia. Our unwavering commitment to OH&S and the quality of our products, ensures we continually support our clients with experienced installers and unrivalled site security & safety solutions. Ask about our range of accessories including stays, dog bars, hand rails, gate wheels, barbed wire and pedestrian gates.

ENGINEERED SPEC FENCING

In high wind prone areas, or where you have installed shade cloth or printed banner mesh, it is vital to use engineered temporary fencing. We have engineered different bracing solutions to suit multiple wind speeds, from servicing the minimum requirement of Stability Class fence at 54km/hr right up to 147km/h depending on your site's specific requirements. All of our temporary fencing is tested to be compliant with the most current version of the Australian Standard for Temporary Fencing AS-4687:2022.

SEMI PERMANENT FENCING

When you require something stronger and sturdier than normal temporary fence. Then you need our semi-permanent fencing. Suitable for most large scale events and gatherings. We have two options available; Rammed Post and Spike Post.

PRESTIGE FENCING

Perfect for events and sites where extra security or a smarter presentation is required. Our Prestige Panel provides anti-climb vertical piping and is a smarter looking alternative to a standard weld mesh temporary fence panel.

PLASTIC SHEET TEMPORARY FENCING

Made from High Density Polyethylene (HDPE) sheets and attached to our sturdy MAXI 2.4m Panels, our plastic sheet fencing system provides a great alternative to traditional plywood hoarding while being extremely quick and easy to install.

SHADE CLOTH

Ideal for sun protection and privacy screening. Our high quality, heavy duty, UV protected Shade Cloth range will last for years. Available in a variety of widths, colours and shade ratings.

NOISE REDUCTION BARRIERS

Our Noise Reduction Barriers (Acoustic Curtains) help protect local communities and employees from the harmful effects of excessive noise. Our barriers reduce noise levels by up to 20dBA. Lightweight, weatherproof and adaptable to any environment they are simple to install and easy to transport.

WHITE PICKET FENCING

Need to keep control of crowds while still making a stylish impression? Our White Picket Fencing is for you. Lightweight, durable and sturdy, with low profile feet for stability. With a wind resistant design, this temporary fencing system provides a smart front-of-house fencing solution. Suitable for all occasions from sporting events, expos, weddings and more.

PRINTED BANNER MESH / SHADE CLOTH / CROWD CONTROL BARRIER SLIPS

Looking to create a visual impact at your next event? We can help with custom branded shade cloth, banner mesh and crowd control barrier slips. Work with our team of in-house graphic designers to create the impact you need to bring your event to life!

SMARTWALL

State of the art in design, the NEW SmartWall utilises our temporary fence panel with a simple, yet effective, one-piece water filled barrier base. With its sleek aesthetic, the SmartWall is ideal for high-profile events.

Engineer certified to meet stability class
AS 4687:2022

CROWD CONTROL BARRIERS

Quick and easy to install, our Crowd Control Barrier system is ideal for public safety at events and gatherings. Vital for maintaining safe crowd flow our barriers are designed with stable flat feet to reduce any tripping hazard and the added safety of holes for pegging or dyna-bolting.

WATER FILLED BARRIERS

Our **Shield 1** barrier is made from a patented composite design, utilising a high strength modified UV stabilised polyethylene. Easy to install with steel connecting pins, this Australian made, re-directive barrier is approved by road authorities Australia wide. Our barriers have apertures in place so they can easily be fitted with fence tops for added privacy (see below).

Our **KI 1000** has been designed specifically as a pedestrian and low speed zone barrier. This barrier has a simple interlocking system that allows the barriers to remain connected while moving through angles up to 120° each way. Fitted with Class 1 reflective tape, these highly visible barriers have two apertures topside for the fitment of hazard lights, pole signage or extended mesh fencing. Complies with Australian Standard AS1742-3-2019 Traffic Control Devices for works on roads.

SHIELD 1 FENCE TOPS

Our Shield 1 can each be fitted with extended mesh fence panels.

SOLAR / WIRELESS SITE CAMERAS

Monitor and protect your site and assets with our solar/wireless security camera systems. Available as either single, double camera or PTZ units with various installation options available. Reduce the risk of theft and gain peace of mind that your site or venue has complete 24/7 visibility.

**4K TURRET
CAMERA**

**180° / 360°
CAMERA**

**PTZ
CAMERA**

Installation options:

- Above ground
- In ground
- Container mounted
- Concrete base

Benefits:

- Solar & battery powered
- Uses Telstra 4G wireless internet
- High quality 4K 8MP camera
- Advanced motion detection up to 20m range
- Email and push notifications to your mobile or tablet when motion is detected
- Flood light & strobe light upon detected motion

We can also provide Site Monitoring and Time Lapse functionality, if this is of interest, please let us know.

GROUND PROTECTION MATS

Our Ground Protection Mats (bog/track mats) shield grass and soft ground from tyre damage and prevent vehicles from getting stuck. Made from UV-stabilised recycled polyethylene, they flex under heavy loads without breaking and distribute weight effectively. Each mat measures 2400mm x 1200mm.

PORTABLE TOILETS

Safe, comfortable and hygienic, our portable toilets are both modern in design yet ergonomically friendly. Durable and built to withstand the demands of high usage and frequent movement. With regular servicing available upon request.

ENGINEERED TEMPORARY FENCING

At 1300TempFence we take pride in supplying industry leading, fully engineered systems, so you don't need to worry about issues with compliance or safety. All systems are certified by third party engineering consultants, and all relevant engineering documents will be provided to you throughout the quoting and installation stages of your project.

All testing documents have been prepared in accordance with the following Australian Standards: AS 4687 - 2022 Temporary Fencing and Hoardings.

PROPRIETARY DESIGNS FOR WIND SPEEDS OF:

- 54 km/h • 65 km/h
- 75 km/h • 86 km/h
- 100 km/h • 115 km/h
- 140 km/h

NOTHING BEATS EXPERIENCE

At 1300TempFence we have the products, the experience and the expertise to ensure your event not only runs smoothly, but is also safe for all workers and attendees. We understand the true complexity of large scale events and know how to seamlessly ensure that all moving parts are where they need to be on time, on budget, every time!

We have proudly assisted on large scale sporting, cultural, music and community events. Working together with Event Companies and Councils we have assisted to deliver many major events across Australia.

SPORTING EVENTS:

- Formula 1 Australian Grand Prix
- AFL Grand Finals & Footy Festival
- LIV Golf (Adelaide)
- F50 SailGP (Sydney)
- Australian Open
- Run Melbourne
- Melbourne Cup Carnival
- Summernats (Canberra)

MAJOR EVENTS:

- Good Friday Appeal
- Moomba Festival
- Holi Festival (National)
- NYE (Melbourne)
- RSPCA Million Paws Walk
- The Big Design Market
- KnotFest
- Firelight Festival
- *Plus plenty more*

SPORTING EVENT CASE STUDY:

AUSTRALIAN FORMULA ONE GRAND PRIX

When the world turned its eyes to Melbourne for the 2025 Formula 1 Australian Grand Prix, 1300TempFence was behind the scenes, ensuring the event ran safely and securely. As a trusted leader in event infrastructure, we were proud to play a pivotal role in supporting one of the most high-profile sporting events in the world.

Our contribution

Across a meticulous three-month bump-in period, our team delivered a massive logistical effort to meet the scale and prestige of the Grand Prix:

- 41.5 km of Engineered Temporary Fence
- 6.4 km of Crowd Control Barriers
- 1.4 km of Razor Loop with single strand barbed wire for heightened security
- Self-closing Pedestrian Gates
- Dog Bars to prevent under-barrier access
- For the first time at an event of this magnitude, we implemented a Razor Loop and self-closing gate - raising the bar for both safety and operational efficiency.

Challenges and solutions

Executing a project of this scale is never without challenges. The site was dynamic, timelines were tight and demands shifted daily. But our strong team was up for it showing:

Adaptability: A rotating crew of 5 casuals and 9 subcontractors enabled rapid response to changing site conditions.

Consistency: Our hardworking Operations Team provided ongoing onsite coordination, ensuring smooth handovers and quality control across all phases.

Collaboration: Cross-team communication and a proactive planning approach kept the project moving at pace and aligned with evolving client needs.

Outcome

We delivered on time, to spec, and without disruption - an achievement that speaks to the strength of our planning, people, and processes. The successful delivery not only reinforced our long-standing relationship with the event organisers but cemented 1300TempFence as one of Australia's leading event temporary fencing providers.

The Australian Formula One Grand Prix is a showcase of what 1300TempFence does best: delivering large-scale, complex event projects with precision and professionalism.

SPORTING EVENT CASE STUDY: LIV GOLF

When world-class events demand top-tier temporary fence solutions, 1300TempFence steps up to deliver. LIV Golf Adelaide, held from February 14th to 16th, brought together elite golfers and thousands of fans for a weekend of thrilling competition. The event required careful planning and extensive temporary fence infrastructure to manage crowds, secure key areas, and ensure an optimal experience for players and spectators alike. To help deliver this high profile event, the installation process began back in December, with operations ramping up significantly from the first week of January. To ensure a seamless install, members of our Operations Team flew in from our Head Office to assist our South Australian crew, with installations.

Our experienced team successfully installed over 8 km of Temporary Fencing, including our Traditional Temporary Fence, Semi-permanent Fence and Engineered Temporary Fence, 7 km of Shade Cloth. As well as Crowd Control Barriers, White Picket Fence and Water Filled Barriers.

Temporary fencing played a critical role at LIV Golf in managing pedestrian traffic, protecting high-traffic areas, and maintaining clear boundaries between player zones and spectators. Our solutions helped:

- Direct and control crowd movement across the event site.
- Enhance security by securing restricted areas.
- Define walkways and viewing sections for an improved spectator experience.

With years of experience supporting major sporting events, 1300TempFence delivered a seamless installation that met the highest standards of safety and efficiency. Whether it's LIV Golf, a music festival, or large-scale public event, 1300TempFence has the expertise and resources to provide reliable and high-quality temporary fencing solutions, nationwide.

SPORTING EVENT CASE STUDY: AFL GRAND FINALS

1300TempFence is proud to support the AFL Grand Final each year. From the Grand Final Village to the Parade, we help ensure the week-long festivities run smoothly. This year, bump in started on September 5 and continued up to the Grand Final public holiday. With the public moving through the area, safety was a top priority, requiring spotters and careful coordination, especially with just one forklift on site. We supplied and installed:

Grand Final Village:

- 450 m of Engineered Temporary Fence 54 km spec 100%
- 150 m of Crowd Control Barriers
- 144 m of Weed Mat
- 450 m of Printed Banners from our sister company, Signage HQ

September Club:

- 941 m of Engineered Temporary Fence 54 km spec 70%
- 220 m of Crowd Control Barriers
- Installation of 941 m of Banners

Footy Festival:

- 785 m of Engineered Temporary Fence 54 km spec 100%
- 123 m of Temporary Fence
- 2.2 km of Crowd Control Barriers

- 472 m of White Picket Fencing
- 785 m of Weed Mat
- 118 Custom-made White Temporary Fence Feet

Grand Final Parade:

- 320 m of Engineered Temporary Fence 54 km spec 100%
- 6 km of Crowd Control Barriers

The Grand Final Parade was our biggest job, with four crews installing 6 km of barriers on a staggered schedule. Bump out began immediately after the parade, under tight timeframes, including using a specialised forklift for William Barrack Bridge. Our operations team and Project Managers were key to the event's success, the event drew huge crowds and was a major success. Organisers said:

"Thanks to the team for their work on the Grand Final Parade. An enormous amount of CCBs were installed and removed, on what was a huge day in the searing sun for the crew. Please pass on my thanks to the whole team for a smooth roll out and removal, which saw us able to open Batman Ave almost 2 hours ahead of time too. See you at the next event."

MAJOR EVENT CASE STUDY: MOOMBA FESTIVAL

Moomba is Australia's largest free community festival, celebrating its 70th year over Melbourne's Labour Day weekend. The five-day event includes the famous Birdman Rally and Moomba Masters waterski tournament, offering fun for the whole family.

In partnership with Momentum Events Management, 1300TempFence provided temporary fencing, engineered fencing, and crowd control barriers.

We supplied and installed:

- 2 km x Engineered Temporary Fence 54 km spec 70%
- 551 m x Temporary Fence
- 4 km x Crowd Control Barriers

Setup began on 19th February with up to 3 crews working daily. Following the event, we completed pack down by 15th March.

1300TempFence is proud to support one of Melbourne's most iconic festivals.

SPORTING EVENT CASE STUDY: SUMMERNATS

1300TempFence was proud to support Summernats, Australia's top car enthusiast festival, held January 2-5 in Canberra. Drawing thousands from across the country, we helped ensure the event ran safely and smoothly.

Installation began in mid-December and was completed ahead of schedule, allowing organisers time to finalise prep.

We installed:

- 6 km of Temporary Fencing
- 2 km of Crowd Control Barriers
- 60 Portable Toilets

A new gate configuration improved safety in the drive-by area by keeping pedestrians off the road and managing crowds more effectively.

Temporary fencing also defined the following key areas:

- Burnout competition
- Skid Row
- Drifting competition
- Drive-by area

CULTURAL/COMMUNITY EVENT CASE STUDY: **HOLI FESTIVAL**

The Holi Festival celebrates unity in diversity and brings our communities together. It's a weekend of culture, colours, food, live performances, and much more. 1300TempFence had the honour of providing our services to the Holi Festival across multiple cities including Melbourne, Sydney, Brisbane, Canberra, Adelaide and Perth. Our team nationwide supplied over 1.6 km of temporary fencing, along with more than 500 m of crowd control barriers and 60 portable toilets. We were proud to participate in this large-scale national event. Our network of branches across Australia worked together to help deliver seamless events across the country.

The Holi Festival was an extraordinary experience to be a part of and it was great to showcase the collective efforts of our branches nationwide.

We were contracted to supply and deliver:

Canberra

- 500 m x Temporary Fencing with Support Stays
- 100 m x Crowd Control Barriers
- 10 x Portable Toilets

Adelaide

- 288 m x Temporary Fencing
- 234 m x Crowd Control Barriers
- 10 x Portable Toilets
- 1 x Accessible Portable Toilet
- Ground Protection Mats

Sydney

- 274 m x 1.8 High Temp Fence w/ Support Stays + Mesh
- 44 m x Crowd Control Barriers
- 10 x Portable Toilets

Brisbane

- 214 m x Temporary Fencing
- 66 m x Crowd Control Barriers
- 6 x Ground Protection Mats

Melbourne

- 200 m x Temporary Fence w/ V bracing every 5 panels
- 55 m x Crowd Control Barriers
- 14 x Portable Toilets
- 14 x Portable Toilet Platforms

Perth

- 270 m x Temporary Fence
- 5 x Portable Toilets
- 1 x Accessible Portable Toilet

THANK YOU

To discuss this Event Capability Statement in further detail, please use the contact information provided. Call today to receive your tailored quote.

We look forward to working with you.

DON'T BELIEVE JUST US,
Here's what some of our clients have said!

After what has been a challenging few years in the events industry, you and your team's contributions are immensely appreciated, and we could not have delivered such a successful event for teams, fans and staff without it.

**AUSTRALIAN FORMULA 1
GRAND PRIX CORPORATION**

Matthew Walton

What set 1300TempFence apart from other options was their customer service right from the beginning.

The team were proactive in planning and communicating with us before the event, ensuring everything was well-prepared and ready for the big day.

**SOLE MOTIVE /
RUN MELBOURNE**

Julie Tedde

Gus was outstanding in everything we asked of him, even when it was 6pm on Friday night and we needed more fence panels and blocks and he had them to us within the hour. Gus worked as a team with us and highly recommend him and his boys. Looking forward to more work with 1300TempFence.
